## On-Site Engineering Support

Southcott's 20' on-site hydraulic container workshops are ideal for mining operations, service contractors and oil & gas applications.

### Southcott containers are available in multiple designs:

- ✓ Fluid Connectors & Hydraulic Hose Assemblies
- ✓ Hydraulic Components & Maintenance

### All containers are built to suit specific site and customer requirements:

- ✓ 2" or 1¼" Crimp Machines
- ✓ Hose Cutting Saw
- ✓ Hose Cleaning & Spill Kits
- ✓ Hose Reel Racks & Carousels
- ✓ Work Benches & Electrics
- ✓ Hydraulic Test Units
- ✓ Hose/Tube Identification Tagging
- ✓ Labelled Boxes & Draws
- ✓ Posters, Catalogues & Display Information

Southcott can offer hydraulic training programs, on & off site, with on-going technical and engineering support.

**Please contact Southcott for further information.**
